

how MANY?

You can count things in so many different ways.
Can you answer the following questions? Pay
close attention to the words **and**, **or**, and **not** to
make sure you are practicing your logic skills!

How many
computers are
blue?

How many
computers are
not blue?

How many computers
are blue and yellow?

How many
computers are
smiling?

How many
computers are blue
or smiling?

How many computers
are blue and not
smiling?

Now, write your own statement
about the computers.
